

Writing a Class Plan

There are many ways to write a class plan. One way to do so, is to have a blank plan to fill out each week. A sample blank plan is attached in the website. Feel free to use or adapt this plan in your teaching.

Some things to consider when designing a class plan:

1. The length of class time
2. The age of the students
3. The priorities of the class
4. The order you would like to do things in

Below is a sample class plan:
